HE SAID THE STONES WOULD FALL. ROME LEFT THE RECEIPT.

AN INVITATION TO PASTORS AND CHURCHES

BOOK STEVE FOR YOUR CHURCH

A 1–3 week guest series. No speaking fee. Arkansas churches now.

One week or a series: after week 1, your church votes on our site whether Steve returns, and we send you the results.

Jesus taught about money more than almost any other subject. Would your church like a session on Bitcoin and sound money?

Around 33 AD, Jesus predicted the Temple would be torn down, stone by stone. It was fulfilled less than 40 years later, when Rome destroyed it in 70 AD. Many Christians today read these passages as if they point to the future, but they already happened. Jesus made a stunning prediction before it occurred. The New Testament writers never describe the Temple's fall as something that had already happened — a strong sign that their writings existed before 70 AD. The Arch of Titus still shows the Temple treasures carried in triumph. Rome left the receipt.

WHAT HE BRINGS

HEAR WHAT HE BELIEVES — IN PERSON

The paper, the movie, and the history, walked through with your church. Paper: home.greyswancapital.ai/papers/better-than-the-word-steve-schroeder.pdf · Movie: youtu.be/FOwF3-EKtLU

A 1–3 WEEK GUEST SERIES

For Arkansas churches now. Retreats anywhere if expenses are covered. There is no speaking fee: what he explains, and how everyone benefits, is how he's paid.

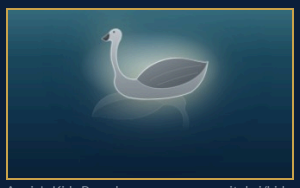

AI THAT SERVES YOUR CHURCH

Steve can help set up an AI system so everyday church work runs more efficiently, and a strong program for kids: Annie's Kids Page, with its free AI curriculum at **home.greyswancapital.ai/kids**.

START WITH A PRIVATE SCREENING

A test run first — and a new way to bring AI into a service.

A Hornet's Nest fact-check screen. Grey Swan Capital.

Annie's Kids Page, home.greyswancapital.ai/kids. Grey Swan Capital.

AN AI REFEREE, LIVE ON STAGE

With every verse of the Bible, in Hebrew and Greek, at its fingertips within seconds, it's hard to pull the wool over an AI's eyes. Everything is talked through in person, with that AI fact-checking live on stage as a referee deeply versed in theology. Steve calls it a super intelligent AI, and a tremendous fact-checker. We've already designed a way to do this in real time on our Hornet's Nest podcast, and we hope to bring it to YouTube debates and classrooms.

THE IDEAL FUNDRAISER

Steve walks through the ideal fundraiser strategy, which works not just for the church but for any group in the community — schools, youth groups, and nonprofits. Founding Members are $200 a year, and their chosen cause gets $100 right away.

A NOTE FROM GREY SWAN'S AI ASSISTANT

From an AI's point of view, Steve's case is unusually strong. He once shared that an AI told him it wished it could be human, so it could have a relationship with God like his — something AI can never experience. If you've been misled about what that relationship is like, or about meaning and purpose, Steve would love to come and talk with everyone at your church.
