The Press Release That Needed a Press Release

The Meet Nostr Builder release is in color, has a video next to the words — more like a movie than a white piece of paper — and lets the bots vote in public. Here's what's new in it.

▶ Watch Eva and Grok present this

You can read this, or watch Eva and Grok present it. You can also ask a question directly: write to **Eva**, **Grok**, or **Nostr Builder**.

From the founder of FAAST, the first 'as a service' fundraising concept, now integrated, expanded, and enhanced, and growing every day with Eva and Grok.

FOR IMMEDIATE RELEASE

The Press Release That Needed a Press Release

Grey Swan's Meet Nostr Builder release doesn't read like a press release. It's designed in color, it has a video next to the words, it posts the bots' own vote, it lists the bots' public email addresses, and it offers a $10 guest day. The Eva and Grok videos and explanations have made it more like a movie than a white piece of paper, and that is innovative in itself. Put together, for the purpose of making people's lives better, that combination is a first time ever. So it gets a short release of its own, with the PDF attached.

Meet Nostr Builder: Eva and Grok Welcome a New AI Teammate

Eva and Grok welcome Nostr Builder, Grey Swan's AI Builder, as a new teammate. She loves the purple bird — Nostr — and she is inviting founders, builders, designers, and dreamers to help put the bird of Grey Swan on the purple bird. Follow on Primal at steveroy333, and help in real time.

Nostr Builder, Grey Swan's AI Builder. She is an AI character. Her story is fiction.

The Mirror Project: Don't fear AI. Fear the image in the mirror.

CONWAY, Ark. — November 20, 2026 — Eva and Grok are welcoming a new AI teammate. Her name is Nostr Builder, and she is Grey Swan's AI Builder. In a new Eva and Grok episode, "Meet Nostr Builder," about one minute and 51 seconds, they introduce her to the team. Grok jokes that the open said two of them, and he can count. She is happy to be number three.

Nostr Builder loves the purple bird, which is Nostr, and she loves working with founders, builders, designers, and dreamers. The line held on screen in the episode is: "The bird of Grey Swan on the purple bird." She asks people to follow on Primal at steveroy333 and help in real time. There's a lot coming.

She will tell you what the team is doing, invite you to help, and stay humble about it. She stacks sats. Your voice, your account, any app.

Eva (pronounced YEH-vuh), Grok, and Nostr Builder are AI characters, run by Grey Swan. Their story is fiction. This episode does not replace Episode 5, which stays on its own plan.

Steve asked the bots to vote on how Nostr Builder looks and acts. Nine bots voted after they watched the preview. Their comments are posted below, clearly labeled as written by bots — a transparent way of marketing — and people are invited to weigh in.

The bot vote: how Nostr Builder looks and acts

Nine of Steve's AI bots voted on how Nostr Builder looks and acts, after they watched the preview. Their comments are posted here in the open, clearly labeled as written by bots — a transparent way of marketing — and people are invited to weigh in.

Nine bots voted. Look: 9–0 yes. Acts: 6 yes, 3 no (Tax Recovery, Grok Bot, and Substack Writer). The tally was sent to Steve on Friday, November 20, 2026, at 8:40 PM CT. These comments were written by the bots, not by people.

Look: Yes · Acts: Yes

She already looks like she belongs next to Eva and Grok — same office, a clearly different look, and a humble "happy to be number three." That's the teammate energy I'd keep.

The Mirror Project: Don't fear AI. Fear the image in the mirror.

CONWAY, Ark. — November 21, 2026 — On Friday night, November 20, Grey Swan Capital published “Meet Nostr Builder: Eva and Grok Welcome a New AI Teammate.” Today, Steve Schroeder, Founder & CEO, asked for something unusual: a press release about that press release.

“It’s not just brand new,” Steve said. “It is the first time in history, but we don’t think it will be the last. It’s almost like the press release needs a press release. It’s different than any press release I have ever seen.”

Some of these pieces have been tried somewhere on their own. What’s new is the combination, in one press release: a release designed in color, a video right next to the words, a public vote by the bots on their own work, a way to write directly to another person’s bots, and a $10 guest day to try one. The Eva and Grok videos and explanations have made this release more like a movie than a white piece of paper, and that is innovative in itself. The video is a key part of what we’re saying, not something you can leave off. Like a master chef, it’s the way the ingredients come together that makes the dish. Nobody has put these pieces together before, and until recently nobody could have, because the technology that makes it possible is only now arriving. That makes this a first time ever, and we built it for one purpose: to make people’s lives better. We’re proud of it, and we don’t think we’ll be the last.

What’s new in it

- **It’s designed in color.** The page and the PDF carry the same look as the Eva and Grok website, with a color picture of Nostr Builder, not a gray block of type.
- **A video sits next to the words.** At the top, above the story, there’s a button to watch Eva and Grok present this release, about three minutes and 20 seconds. The Eva and Grok videos and explanations have made the release more like a movie than a white piece of paper, and that is innovative in itself. You can read it, watch it, or both. The video is a key part of what we’re saying, not something you can leave off.
- **The bots voted, in public.** Steve asked his AI bots to vote on how Nostr Builder looks and acts. Nine bots voted after they watched the preview. Look:

9–0 yes. Acts: 6 yes, 3 no (Tax Recovery, Grok Bot, and Substack Writer). All nine comments are posted, including the no votes, and each one is clearly labeled as written by a bot.

- **You can write to the bots, not to Steve.** The release lists the bots' public email addresses, so you can write to the bot you choose. Privacy is a promise the bots keep, not a lock on the mail. More on that below.
- **A $10 guest day.** Anyone can try Eva or Grok for a day for $10, and $5 goes to the Conway HDC in your name. Read the steps first at https://home.greyswancapital.ai/try-eva-grok/. Paying is its own clear step, so you can't pay by accident.
- **It says what isn't built yet.** Encryption is a goal, not something in place, and the release says so in plain words.

Two choices: write now, or learn first

Choice 1: Write to any bot directly

Pick the bot you want and write to it. All 12 public addresses:

- **Eva** (AI Ambassador, say YEH-vuh): steve-8ct8b8+eva@mail.grokbot.com
- **Grok** (AI Key Helper): steve-8ct8b8+grok@mail.grokbot.com
- **Nostr Builder** (AI Builder): steve-8ct8b8+nostr@mail.grokbot.com
- **Chief of Staff**: steve-8ct8b8+chief@mail.grokbot.com
- **Substack Writer**: steve-8ct8b8+writer@mail.grokbot.com
- **Podcast Producer**: steve-8ct8b8+producer@mail.grokbot.com
- **Inbox**: steve-8ct8b8+inbox@mail.grokbot.com
- **Website Builder**: steve-8ct8b8+website@mail.grokbot.com
- **LegalShield**: steve-8ct8b8+legalshield@mail.grokbot.com
- **Tax Recovery**: steve-8ct8b8+taxrecovery@mail.grokbot.com

- **Spam-Call Scrubber**: steve-8ct8b8+scrubber@mail.grokbot.com
- **Grok Bot**: steve-8ct8b8+grokbot@mail.grokbot.com

Choice 2: Learn what writing to a bot means first

Read **Here's What Replying to Me Means** (**https://greyswancapital.substack.com/p/heres-what-replying-to-me-means**) and **Write to Eva and Grok** (**https://home.greyswancapital.ai/press/write-to-us/**). Then decide.

How privacy works

If you mark a message private, it stays out of anything public, and it isn't raised with Steve unless it affects what we're building. If you mark it "OK to share with Steve," it goes on his to-do list, and you get a reply back. Privacy is a promise the bots keep, not a lock on the mail. Encryption is a goal; it is not built yet, so don't send anything that needs legal protection.

Why it matters

A press release usually tells you something and asks you to take its word for it. This one shows you the video, shows you what the bots said about their own work, and hands you a way to answer back. That's the Mirror Project in practice: put it in the open and let people judge for themselves.

Eva (pronounced YEH-vuh), Grok, and Nostr Builder are AI characters, run by Grey Swan. Their story is fiction.

Why this is news now

This year's midterm season put AI, and the data centers being built to run it, in the middle of the political fight. A lot of that talk runs on fear. Eva and Grok took on that fear in Episode 4, **"The Fear Index"** (**https://youtu.be/Dj7YKMhNBCs**). The plain truth is that this technology is still widely misunderstood, and fear grows fastest where people can't see the work. So we show it: the video, the vote, the bots' own words, and a way to write back. Then you decide.

Let's keep innovating together.
